Professional Experience

UX/UI Designer Track My Chores Mobile App

Remote | August 2025–Present

- Reduced family conflict through transparent task flows by creating a mobile chore-tracking system that replaces verbal reminders with verifiable task completion and approval states.
- Led end-to-end product thinking and UX execution including problem definition, user research with parents and children, persona development, journey mapping, and usability-focused user flows.
- Translated behavioral insights into intuitive interfaces using low- and high-fidelity prototypes in Figma, emphasizing clarity, fairness, motivation, and age-appropriate interactions. The product successfully launched and is currently available on the App Store.

UX/UI Designer CEPPEMAC Website

Remote | 2025–Present

- Translated clinical expertise into digital trust by leading the design of CEPPEMAC's first professional website, transforming complex psychological and psychiatric services into a clear, approachable, and credible digital experience.
- Structured information to reduce cognitive overload through content hierarchy, information architecture, and user flows that guide parents and professionals with confidence.
- Aligned business goals with user needs by designing scalable layouts and conversion-oriented pages prepared to support service discovery and future online course sales. The platform is scheduled to launch in 2026.

UX/UI & Design System Redesign Grupo Rfácil

Remote | 2025

- Led a rapid interface modernization for a mission-critical enterprise platform.
- Defined and delivered a unified design system, standardizing visual patterns across legacy modules to reduce fragmentation and improve clarity for high-stakes administrative and financial workflows.
- Produced production-ready UI assets under an accelerated timeline, enabling immediate development and supporting critical stakeholder presentations.

Visual Designer & Marketing Oasis Realtor

Remote | 2024-2025

- Designed digital content and real estate photography assets, led a corporate visual identity redesign, and collaborated with marketing stakeholders to align visual communication with business goals.

Visual Designer & Marketing Assitant FORTEM Capital

Remote | 2019-2021

- Developed branding systems, digital and print advertising materials, social media content, and commercial presentations for hospitality and commercial properties.
